

FLOOD WORKSHEET

This information is required for quotation and application preparation purposes only. The insured must prepay the full annual premium. **The effective date of coverage will be 30 days following the receipt of the completed application and prepaid premium to Fidelity National Insurance Company.**

A copy of the elevation certificate is required with this worksheet. If the elevation certificate is not available, additional information will be required. If the location is flood-proofed, please also provide flood-proofing certificate.

I. General Information

- a. Name of Entity: _____
- b. Tax ID Number: _____
- c. Mailing Address: _____

II. Property Location

- a. Street Address: _____
- b. Occupancy: _____

III. Rating and Elevation Information

- a. Is there a basement? _____ Finished or Unfinished? _____
- b. Number of floors excluding basement: _____
- c. Is building elevated? _____ (if yes, complete elevated bldg. worksheet)
- d. Building permit, site construction date, or substantial improvement date, whichever is later: _____/_____/_____ (month, day, year)
- e. Is the building in the course of being constructed? _____
- f. The contents are located in:
 - _____ 1. Basement only
 - _____ 2. Basement and above
 - _____ 3. Lowest floor only
 - _____ 4. Lowest floor above ground level and higher floors
 - _____ 5. Above ground level more than one full floor
- g. Estimated replacement cost of building: \$ _____
Building Amount: _____ Contents Amount: _____

FLOOD WORKSHEET

IV. All Building Types

1. Does the building have a basement? _____ (If yes, answer questions a-d.)

a. Is the basement floor below grade on all four sides? _____

b. Does basement contain machinery or equipment? _____

If yes, check the appropriate items:

_____ 1. Furnace

_____ 6. Oil Tank

_____ 2. Hot Water Heater

_____ 7. Air Conditioner

_____ 3. Elevator Equipment

_____ 8. Cistern

_____ 4. Heat Pump

_____ 5. Other equipment or machinery attached to the building? _____

c. How many feet below the lowest enclosed area (i.e. lowest livable floor) is any machinery or equipment located? _____

d. Is the basement used for any purpose other than storage? _____

2. Does the building have a garage? _____ (If yes, answer questions a-d.)

a. Is the garage attached to or part of the building?

b. Is garage used solely for parking vehicles, building access, or storage? _____

c. Does the garage contain machinery or equipment? _____

If yes, check the appropriate items:

_____ 1. Furnace

_____ 6. Oil Tank

_____ 2. Hot Water Heater

_____ 7. Air Conditioner

_____ 3. Elevator Equipment

_____ 8. Cistern

_____ 4. Heat Pump

_____ 5. Other equipment or machinery attached to the building?

d. Are there any openings or breakout panels (excluding doors) that are designed to allow the passage of flood waters into the garage? _____

3. Site Location

a. Approximate distance of site location to nearest shoreline:

_____ 1. Less than 200 feet

_____ 3. 500 to 1000 feet

_____ 2. 200 to 500 feet

_____ 4. Over 1000 feet

b. Source of potential flooding:

_____ 1. Ocean

_____ 3. River/Stream

_____ 2. Lake

_____ 4. Other: _____

FLOOD WORKSHEET

V. Elevated Buildings

1. Is building constructed on:
 Piers, posts, or piles
 Reinforced masonry piers or concrete piers or columns
 Reinforced masonry piers or concrete shearwalls
 Solid perimeter walls

2. Does area below the elevated floor contain machinery or equipment? _____

If yes, check the appropriate items:
 Furnace Heat Pump Air Conditioner
 Hot Water Heater Oil Tank Cistern
 Elevator Equipment
 Other equipment or machinery attached to the building? _____

3. a. Is area below the elevated floor enclosed? _____ (if yes, answer questions b-g.)

b. Is the area below the elevated floor enclosed: Partially Fully

c. Is enclosed area greater than 300 square feet? _____

If yes, estimate size of area: _____ square feet.

d. Is area below the elevated floor enclosed using materials other than insect screening or light wood lattice? _____

If yes, check one of the following?
 Breakaway walls
 Solid wood frame walls
 Masonry walls
 Other:

e. Is enclosed area constructed with openings or breakout panels (excluding doors) to allow the passage of flood waters through the enclosed area? _____

f. Is enclosed area used for any purposes other than solely for parking of vehicles, building access, or storage? _____

g. Does enclosed area have more than 20 linear feet of finished wall, paneling, sheet rock, etc?
